University Of Derby (UK)   BSc., First Class Hons, Information Technology (June, 2013)

SKILLS

Ruby, Rails, ActiveRecord, Sinatra, JavaScript, jQuery, AJAX, SQL, Postgres, HTML5, CSS3, Git, Heroku, RSpec, Jasmine, 3ds Max, Photoshop CS6, SDK, UDK. Fast at learning anything!

EXPERIENCE

DEV BOOTCAMP - San Francisco, CA
Junior Web Developer (December 2013 – June 2014)
- Over 1500 hours of web development training, including pair programming challenges and fully developed web applications.
- Group web development projects using Ruby on Rails, JavaScript, HTML5/CSS3, jQuery, AJAX, ActiveRecord, Sinatra and deployment through Heroku.
- Used Git and Github for distributed workflow across project teams.
- Implemented Test-Driven Development / Behavior-Driven Development (TDD/BDD) training and best practices (RSpec, Jasmine, Capybara).
- Integrated object-oriented (OO) design patterns and concepts, modularity, as well as various Model-View-Controller (MVC) patterns in web applications.

APPORTABLE, San Francisco, CA
Technical Intern (February 2014 – March 2014)
- Worked with engineers to test company games across varied mobile devices, in an effort to seek out bugs and implement improvements.
- Helped solve gargantuan backlog of developer and end user concerns.

PETA FOUNDATION, Oakland, CA
Donor Data and SegmentationAssociate (August, 2013 – November, 2013)
- Managed donor data and segmentation using SQL and online tools to assist statistical analysis of supported organizations' donor programs and fundraising efforts.
- Provided timesaving solutions for assigned processes and companywide initiatives. Updated SOPs and introduced best practices, including meeting minutes and process flow charts.

DAWN FOOD PRODUCTS, Jackson, MI
Commercial Data Lead (July, 2006–September, 2012)
- Managed cross-functional teams to ensure commercial projects were completed on time and within budget. Reported status to appropriate stakeholders using various collaborative tools.
- Responsible for planning, controlling, and leading key customer projects with a focus on seasonal promotions, modular resets, and new product introductions.
- Designed, created, and managed company documentation using internal and external websites, including SharePoint and cloud-based CRM systems.
